Homestead park needs improvement

Let's make sure our train stops are safe. There is terrible lighting at the Original Thornton Station

Creating more accessible spaces for nonprofits/orgs that provide support/resources to communities

Bike improvement throughout Thornton

Need more cross city bus connections for those who can't drive, more on weekends and evenings

Desire for more vertical parking structures on N-line stations

Back up the bus and improve what we have

So. Thornton property standards

Increase aesthetics along I-25 specifically Amazon and American Furniture, but whole warehouse

Add to the outlet mall with like Castle Rock outlets. Landscaping, architecture, design

Enforce lower speed limits in residential areas - please!

Allow golf carts to be used within certain housing areas to cut down on auto traffic

Where is the new theater? / Yes, where is it? / Indeed!

Dog park by the Platte River

7/17/2019

Need to encourage more bike riding. There are too many big pickup trucks polluting the city.

Identify schools [on the FLUM], ex Horizon H.S.?

Approve tiny home communities

This is an opportunity to define identity of Thornton - this still feels like a bedroom community. North Thornton can have parks, restaurants, CMUs, connected trails

Trail Safety - trail connectivity E/W

Developers incentivized to keep green space

Parques con acceso por personas incapacitadas (Inclusive playground areas for kids with disabilities)

Remodelar el parque de Community Park (96 y York, centro de recreación Thornton) que hubiero áreas para niños de 1 año a 5 años (toddlers) y más seguridad (Remodal the Community Park (96th and York Recreation center), more playing areas for small children from 1-5 years old (toddlers) and more surveillance.)

Less requirements for construction permits. This is the reason there are not upgraded in older homes in south area

Public lighting in the park. The dark areas allow teens to do drugs and have sex

Keep our Wildlife in our plans. Children learn empathy from interaction with wildlife. And prairie dogs are expert water conservationists. This keystone species is vital to all wildlife.

Themed train stops. Learn history and culture at each stop

Better bike connection under 120th

Bike lanes on Colorado Blvd and Washington Ave are too narrow to be safe with all the big trucks and pick ups

Comments

More parks	Lots of traffic on Quebec from E470 and new development. Concerned about more residential development adding more cars.
Recommend property maintenance code and elevate standards in South	Keep commercial, area needs retail, local business, restaurants. Traffic on Quebec is already bad
More bilingual signs	Desire for Sr. Living facility W of KRE
Park and dog park, bike, sidewalks	Hospitals? More in Thornton in the new homes/area
Let's have a development we are proud of at 88th and Washington Station please	Preserve sight lines west of Hunters Glenn lake. Consider ordinances limiting stories (height limitations)
Dog park at Riverdale Baseball fields	Mountain views should be preserved
Bring the arts center to South Thornton	Connect green spaces and neighborhoods
Centros comunitarios biculturales (Bicultural community centers)	Connect bike paths throughout the city and to other bike paths
Improve the quality and image of residential areas in the south parts of Thornton	Connection and safe crossing for Lewis Pl / Homestead Hills down 136th to (across Holly)
Theater with multilevel parking that fits in with terrain	Zoning on S.E. corner of 136th and Holly in question. We were told it was changed from commercial to something more Xcel substation friendly.
Do something with the old Thornton shopping center 88th and Wash.	Need more CMU designation in north (building block 4)
Consider locating new theater in Thornton Shopping Center	One property - why employment? Should be single family
Develop more TOD at 104th and Colorado	Farming historic preservation site at Washington and 136th. Opportunity for site [to the south] to tie into cool CMU
Let's increase the walkability of Thornton, especially in South Thornton	Connect trail and mark Big Dry Trail 128th / Huron
Address the blight that is the Thornton shopping center with more retail and mid level townhomes and condos	Bicycles and safe connections: 1. 144th Ave from Holly west to I-25 is not at all suitable to ride. No connector between neighborhoods. No connection to schools, Amazon, shopping, gym. 2. No safe connection to Big Dry or other trails. Not marked. Bld Blk #4/5 + #7
New schools close to 104th and Riverdale, grades 6-12	Connect walking trails together for longer (multi mile) walks. Big Dry Creek, etc
Congestions now due to building too many apartments	We were told 2010 completed [train station by 160th and Colorado] will we have flying cars first?
The walkability of South Thornton needs to be improved	Cementerio para huma nos (Cemetery for humans in Thornton)

How could you ever envision residential next to a parking lot for Larry Miller with zero landscaping?

More stop signs on Cottonwoods Blvd.

Colorado Blvd bike lanes / Yes!

Increase bike lanes. Some great bike lanes that suddenly stop and there's no where safe to ride

open space trails need to connect with existing trails / Yes!

Thank you for the opportunity to have input

We need bike lanes to be expanded, protected, and to connect to south trails in Thornton

Bike lanes are too dangerous to be properly used. Maybe we need more bike paths rather than lanes? / Yes!

Let's tie in the development of 88th and Washington with the new train station

Can building blocks 3 and 4 be combined especially in South Thornton?

Let's change the narrative about South Thornton. It is original Thornton and has amazing history

Acceso a centros de recreación (Access to recreation centers)

88th East of Washington - add 2 protected bike lanes, one each direction

88th Between Wash and Colorado is ugly, we need streetscaping

Very happy with Thornton services, rec center, senior services and lighted street signs

Encourage a marathon through the city, highlighting the sites and attributes

Ice skating

Access to the property is difficult

Changes to map should be at least lateral (in terms of value) for property owner. Concern about property at 109th and Riverdale Rd, went from neigh. Retail to estate res
